

Sunset Public Hearing Questions for  
**SOUTHERN DAIRY COMPACT**  
Created by Section 43-35-101, *Tennessee Code Annotated*  
(Sunset Termination June 2016)

**Should Tennessee's participation in the compact be continued?**

The Tennessee Department of Agriculture recommends that the Southern Dairy Compact sunset. No activities have been performed and no rules and regulations have been promulgated. While TDA supports the original idea, it must take a national effort for this to work and there seems no potential for this to happen in the near future.
